This book is dedicated to

Alfred Charron (1884 -1959)

et a

Madeleine Charron (1895 - 1987)

Preface

Cette Généalogie est le fruit du rassemblement des documents laissé par nos ancêtre afin que les générations a venir connaissent leurs origines. Ces filiation comportent des “trous ou des vides “due a des pertes ,des destructions naturelles (**Certains documents écrits a des période différentes ne couvre que deux ou trois générations, et ont été trouve dans des vieilles boites ou des vieilles caisses, a la limite de l'auto destruction dont certaines lettres ont soufferts**) ou simplement a des absences.

Merci donc a tous ceux qui, par leur souci de pérennité de l'histoire familiale, ont, a toutes les époques et en particulier depuis deux siècles, permis de bâtir un arbre généalogique a peu près cohèrent.

Introduction

Voici donc l'histoire de la descendance de **Maitre Robert Charron** (~1680) Notaire Royal, qui eut jusqu'a la 16eme generation,une grande descendance.....Des ancetre de Maitre Robert Charron (6 Generations) sont ausi compris mais nomme inconnus (A...F). Cela nous permet de reconnaitre Pierre Charron (1541-1603) comme un de nos oncle. Vous trouverez (*quand completee*) a chaque page de ce recueil, consignees une a une des information, voire anodines, sur la vie de notre famille a Paris, Bordeaux (ou dans la region), et a Ambares en particulier ou chaque evenement a valeur de marque chronologique, a l'epoque ou n'existait que les registres paroissiaux, veritables etat-civil des temps anciens, ou la simple signature, d'un temoin de bapteme ou de mariage, suffisait a marquer le passage d'un individu chronologiquement et geographiquement.

Je prepare une page sur l'internet qui, je l'espere, permettra a chacun de vous d'imprimer ce document et l'arbre chronologique. Je vous enverrait a tous l'address internet sur laquelle vous pourrez vous brancher.

Notes for Pierre Charron:

- Pierre Charron et notre aieul venait d'une grande famille de 8 a 10 enfants; Tous nee a Paris. Leur pere etait 'Libraire', C'est a dire qu'il possedait une bibliotheque. Un des freres de Pierre a fait des etudes de droit, et a ete en Gironde comme procureur du roy.

- He turn from the practice of law to theology, entered the church, and acquired wide renown for well-reasoned and eloquent sermons. He held numerous church benefices, and at Bordeaux became intimate friend and disciple of Michel de Montaigne. In *Les Trois Verity* (1593) he expresses his faith that God exists, that christianity is the true religion, and that the Roman Catholic is the true church. In his famous treatise, *De La Sagess*(1601) (Of Wisdom), he develops a stoic doctrine similar to that of Montaigne, recognizing the insufficiency of reason and expounding a system of secular morality, which freethinkers later interpreted in anirreligious sense. This work, violently attacked, received the warm support of henry IV of France. Charron returned to paris to prepare a new edition of this work which was uncompleted at his death in Paris, Nov 16 1603.

Charron, Pierre

1541-1603, French Roman Catholic theologian and philosopher. He was an important contributor to 17th-century theological thought, combining an individual form of skepticism with a strict adherence to Catholicism based on the

emphasis of the importance of faith over reason. After practicing law for several years, he took orders and soon gained a reputation as an eloquent preacher. He became chaplain to Margaret, wife of Henry IV. His *Traité des trois vérités* (1594) set forth proofs, first, that there is a God and that a true religion exists; second, that no other religion than that of the Christians is true; and, third, that in the Roman Catholic Church alone is salvation found. In 1600 he published a collection of 16 sermons. In his most famous work, the *Traité de la sagesse* (1601), the influence of Montaigne, with whom he had a close relationship, appears. The skepticism of that work awoke criticism and later a summary and apology, *Petit traité de la sagesse*, was published.

- He turn from the practice of law to theology, entered the church, and acquired wide renown for well-reasoned and eloquent sermons. He held numerous church benefices, and at Bordeaux became intimate friend and disciple of Michel de Montaigne. In *Les Trois Verity* (1593) he expresses his faith that God exists, that christianity is the true religion, and that the Roman Catholic is the true church. In his famous treatise, *De La Sagess*(1601) (*Of Wisdom*), he develops a stoic doctrine similar to that of Montaigne, recognizing the insufficiency of reason and expounding a system of secular morality, which freethinkers later interpreted in anirreligious sense. This work, violently attacked, received the warm support of henry IV of France. Charron returned to paris to prepare a new edition of this work which was uncompleted at his death in Paris, Nov 16 1603.

Charron, Pierre

1541-1603, French Roman Catholic theologian and philosopher. He was an important contributor to 17th-century theological thought, combining an individual form of skepticism with a strict adherence to Catholicism based on the emphasis of the importance of faith over reason. After practicing law for several years, he took orders and soon gained a reputation as an eloquent preacher. He became chaplain to Margaret, wife of Henry IV. His *Traité des trois vérités* (1594) set forth proofs, first, that there is a God and that a true religion exists; second, that no other religion than that of the Christians is true; and, third, that in the Roman Catholic Church alone is salvation found. In 1600 he published a collection of 16 sermons. In his most famous work, the *Traité de la sagesse* (1601), the influence of Montaigne, with whom he had a close relationship, appears. The skepticism of that work awoke criticism and later a summary and apology, *Petit traité de la sagesse*, was published.
